1961-62 PRICE LIST

WALNUT BIG AS A PEACH

Produces huge walnuts with light-colored, flavorful meats. Hardy, fast-growing, good shade. Maximum height about 60'...spread 40-50 feet. Best for large yards or open areas. Bears second or third year.

PEACHES

Freestone, clingstone, fruiting-flowering... over 30 varieties of proven productive capabilities. Our list provides a selection of trees covering the full range of climate, soil and other factors for orchards or home growers. For peaches or any other fine fruit trees with "built-in" quality...look to Orange County Nursery.

PERSIMMONS

Leader in the production of Hachiya, Fuyu and others, Orange County Nursery can fill your needs whether commercial or for home planting. Skill and experience provide the answer to production of these high quality, heavy producing persimmons. The popularity of this fruit is ever-increasing. Order now and receive the finest trees in today's market.

QUALITY, SERVICE . . . OUR ONLY CLAIM TO FAME

For nearly 75 years, OCN has been finding better ways to grow finer trees to please nurserymen everywhere. And it's mighty reassuring that every tree you sell is backed by nearly 75 years of specialized experience.

In this new catalog for '61-'62, we present for your selection the finest crop to date...more trees...more varieties. OCN produces the highest quality fruit and shade trees, selling only to those engaged in the sale of nursery stock. Order now to be included among those receiving these top quality trees.

Our use of ideal growing locations -- backed up by the most efficient use of materials and equipment obtainable -- insures maximum growth for each variety. To do this best, we maintain growing grounds in three California counties -- Tulare, Orange and Los Angeles.

We'd be very happy to have you visit us here at our main office in Norwalk.

The following applies to all price rates:

1. Price rates apply to specific varieties.
2. Add 20¢ per tree on orders less than full bundle.
3. This list supercedes all previous lists.

THIS IS YOUR ORDER BLANK

Indicate quantities desired — fill out shipping instructions on opposite page — fold, staple, and return — no postage necessary.

MAPLE LEAF MULBERRY

Huge maple-like leaves densely populate this fast-growing wide spreading tree. No other deciduous tree can compare in color, texture and shade production. At home almost anywhere, the maple leaf mulberry is particularly outstanding in hot interior valleys and high desert regions. The demand is great ...order early.

MODESTO ASH

Shade to order would certainly describe this versatile member of the tree family. Soft textured light green foliage and natural symmetry afford maximum shade and beauty to any landscape. Few trees offer the volume potential of the Modesto Ash. Order early and be sure of filling this demand at full profit...with quality grown trees from Orange County Nursery.

quality, service...

our only claim to fame

For developing quality trees, no ingredient equals experience. And this is the 74th growing season for ORANGE COUNTY NURSERY.

At our three growing yards, we use the best equipment to always bring you the finest in shade and productive fruit trees. Power applied fumigants and pesticides -- best formulations for specific purposes. Our equipment for cultivation, fertilization and harvest is the very finest money can buy. And our field crews add a priceless ingredient -- experience.

Check your needs thoroughly. Go through each of these classifications and order now to cover all your potentials for this 1962 selling season. Get your full share of these finest prime quality shade and fruitful trees while this quality stock is still available. Next month may be too late.
